

## **Unemployment Insurance**

Conservation Districts are subject to Wyoming Unemployment Laws and should have an “account” with the Department of Employment. Payments should be made to the account on a quarterly basis.

Government employers, such as Districts, may elect to reimburse the Unemployment Compensation Fund for the amount of benefits paid to their former employees in lieu of payroll deductions. In cases such as these, the District should set aside funds in a separate account to be utilized in the case of an unemployment claim. District Boards need to maintain consistency with the account. It is recommended that the District make quarterly payments to the account, based on past claims and salaries.

In general, both full and part time employees are eligible for benefits if they are laid off.
